While the majority of people desire to make an impact with their lives, to go beyond the bottom line and ensure their vocations effect lasting change for the good, not everyone is in a position to make that a reality. But you are ... by becoming a TAT Dealership Partner (TDP).

In the fight against human trafficking, the trucking industry is driving change. The efforts of its members, working with Truckers Against Trafficking (TAT) since 2009, are being recognized by Congress, the United Nations, the National Human Trafficking Resource Center, the U.S. State Department, and more. Traffickers are being arrested and victims are being recovered. In fact, more than 1123 victims have been involved in cases called in by members of the trucking industry and in 2017 almost half of the cases generated by truckers involved minors.

As a trucking industry dealership, we’re now asking you to join in this fight by becoming a TAT Dealership Partner (TDP) by taking two simple action steps:

• Sponsor TAT annually at the following levels:
  • 1-15 Locations - $2,000/year
  • 16 - 30 Locations - $5,000/year
  • 30+ Locations - $7,500/year
• Be a distribution point for TAT materials.

In return, you will have your logo listed on our website, [www.truckersagainsttrafficking.org](http://www.truckersagainsttrafficking.org), be given periodic shout-outs on our Facebook page, which has over 175,000 followers and growing, and provided a TDP decal for your door. All TAT materials will be provided to you free-of-charge.

TAT has a critical need for influential distribution points for its materials in an industry the size of trucking if the movement is to continue to grow. Using your resources, both financially and influentially, to spread the word is an effective way to fight this heinous crime and be an everyday hero. If you’re interested in becoming a TDP and joining the hundreds of thousands of trucking industry employees already fighting human trafficking through TAT, please click here.
