

# IMPLEMENTATION OF CDL ANTI-TRAFFICKING LEGISLATION

## CORE TRAINING:

### What is it?

- The training for CDL A includes watching the TAT video and receiving and reviewing the TAT wallet card.
- The training for CDL B includes watching the BOTL video and receiving and reviewing the BOTL wallet card.

## WAYS TO TRAIN:

There are a variety of ways to conduct the training:

- We can send hard copies of both the TAT and BOTL training videos, along with paper copies of the TAT and BOTL wallet cards, to each school.
  - To order copies, email [info@truckersagainstrafficking.org](mailto:info@truckersagainstrafficking.org).
- We can send digital copies (mp4 files) of both the TAT and BOTL training videos to be shared, along with paper copies of each type of wallet card.
  - To request these files, email [info@truckersagainstrafficking.org](mailto:info@truckersagainstrafficking.org).
- If schools have a computer lab, they can have students sign on individually to [www.truckersagainstrafficking.org](http://www.truckersagainstrafficking.org) and watch the video, take a quiz and receive a certificate as TAT or BOTL certified.

## EXTRAS:

- We can create co-branded certificates for each school, and instructors can distribute certificates to their students after showing the video.
  - For a co-branded certificate to include school logo, digital signature and title of the person representing the school on the certificate, send the request to: [education@truckersagainstrafficking.org](mailto:education@truckersagainstrafficking.org).
- TAT and BOTL apps are available for free on both Android and iPhone. Search under Truckers Against Trafficking and Busing on the Lookout. The apps contain all wallet card information, as well as links to the training videos and website and can quickly connect the user to the NHTA.
- TAT can provide a quiz for each of the TAT and BOTL videos that can be given to students if an instructor chooses to test them after showing the training video.
- **Additional training for instructors:** We can conduct a webinar or in-person training for instructors to have a deeper understanding on the issue of human trafficking.
- We can also provide HT 101 slides with notes for the instructors to use prior to showing the video and reviewing the wallet card with students.
- No certificate is required. No quiz is required. No further HT instruction is required.
