Content includes:

- Human Trafficking 101/Nordic Model
- Human trafficking case studies
- Canadian CVE model
- Human trafficking survivor presentation by TAT Training Specialist.
- Victim-centered law enforcement training

Cost: Travel and accommodations for TAT presenters

WHAT ATTENDEES SAY:

"One of the most courageous and educational presentations I have ever experienced in my life. I have an entirely different perspective and insight into the sex industry, abuse and trafficking."
- Illinois State Police Officer

"Very powerful and amazing information. It's going to take me time to fully process all of this information, but I feel like I have a far greater responsibility with my position than I did before this presentation. I also come from a family of truckers who are in the industry. They will all be getting this information." - ODOT officer

"I have a better understanding about trafficking and am able to distinguish between the abuser and the abused." - Mississippi DOT Officer

"I was never aware nor did I think too much about this topic. I was always under the impression (incorrectly) that the one prostituted was the issue, and I never thought much about the pain those trafficked were going through." - NE State Patrol

FREE DVD RESOURCE:

Designed to provide an introductory education on the realities of human trafficking for all law enforcement officers, TAT's 38-minute training DVD is available in hard copy and via digital download.

To order copies of this DVD or any TAT materials, please email tat.truckers@gmail.com.
