TAT/BOTL Virtual Bus & Casino Briefing Nevada

Truckers Against Trafficking/Busing on the Lookout, the Nevada Attorney General's Office, the Nevada Trucking Association, and the Nevada Resort Association hosted an online briefing on how the casino, transit and bus industries can partner with law enforcement to help end human trafficking in Nevada. The briefing included an overview of human trafficking, survivor testimony, guidance on using BOTL's training materials and a discussion by a panel of law enforcement officers from the Reno Human Exploitation and Trafficking (HEAT) Unit. The goals of this event were to i) provide niche-specific anti-trafficking training for target industries; ii) outline concrete actions these industries can take to combat human trafficking; and iii) link industry stakeholders directly to the law enforcement investigating human trafficking cases.

ATTENDEE FEEDBACK

"Thank you for the training; it is certainly the most informative one I've been to on human trafficking."

"I have attended a number of these, and [this one] was one of the very best in terms of providing actionable information and training."

"Excellent format in presenting the material. Having presenters personally affected by trafficking and those who investigate trafficking added extra credibility to an enlightening 90 minutes."

"We have used BOTL materials at our agency, and the response was very positive."

"Thank you for an outstanding and useful course!"
