

BOTL's Youth on Transportation Survey

Busing on the Lookout (BOTL) wants to hear from you! BOTL works with transit and school transportation to combat human trafficking in communities across North America. BOTL wants to know the best ways to share information about human trafficking with youth. This is where you come in! Please complete this questionnaire about how you use transportation, what you know about human trafficking, and your opinions on how BOTL & our partners can help youth learn more about the issue.

All answers will be anonymous and confidential. This means that your teachers, parents and classmates will not see what you write.

Scan this QR code to take the online questionnaire.
